

SeaTech is now AquaLock™

The Fittings You Trust Have a New Name

AquaLock™ it Down!

AquaLock by Watts offers the most flexibility and superior performance with no tools required. Whether your tubing is PEX, copper, or CPVC, AquaLock has a stainless steel gripper ring that is not only resistant to corrosion, but interlocks with multiple materials. Want to ensure your next job is secured? AquaLock it down.

The most flexibility for ease of installation:

- **No tools required**—connect and disconnect without tools for easy and flexible installation.
- **Locking clip**—for extra connection security.
- **NO flow restriction**—no pipe stiffeners for copper and CPVC pipes allows for full flow without additional head losses.
- **Rotate under pressure**—for Brass, Mini, and Plastic fittings.
- **Zero-leak patented O-ring guide for Plastic Series**—protects the O-ring from damage during connection, helps align the tubing with the O-ring every time, and prevents the O-ring from becoming dislodged.

WATTS®

Seal the Deal

Providing reliable, high-quality, cost-effective fluidic connection solutions for all your plumbing needs. With our full range of Imperial and Metric sizes, push-to-connect fittings, valves, manifolds, and PEX tubing make Watts your single source supplier.

O-ring Guide is the Key!

AquaLock™ incorporates an exclusive O-ring guide for improved reliability. This unique feature ensures zero-leak connections by:

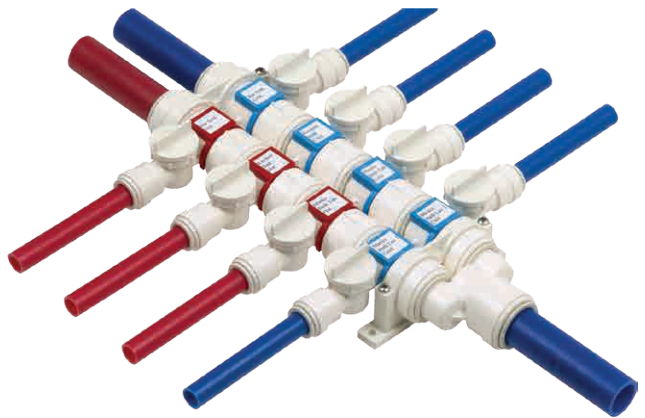

- Protecting the O-ring from damage during connection
- Increasing the connector's side load capacity
- Correctly aligning the tubing with the O-ring every time
- Prevents the O-ring from becoming dislodged
