Flush Your Facility's Fixtures Quickly and Efficiently

Satin chrome finish shown with blue protective safety cover off

Sanitizing your system is costly and time consuming. What if it didn't have to be that way?

The Under Sink Guardian® that has been providing you with scald protection just got an upgrade. The new and improved LFUSG-HWP features a hot water purge lever, **allowing for fast and simple sanitization at the flip of a switch.**

How it Works:

- 1 Choose LFUSG-HWP for your water management plan
- 2 Enjoy scald protection and easy sanitization at the faucet
- 3 Have confidence knowing you can quickly and easily maintain safe water for your facility

Having safe water is a must.
